Dear Kate,

Zoom works, thank you.

Best,
Kai

Dear Kai, dear all,

Thanks so much for your message. Your proposal sounds great and we would be happy to schedule our first call on Monday, September 20 from 11:30 am – noon. We'll be happy to send a Zoom invitation, unless EPA prefers a different format for the meeting.

Thanks again,
With best regards,
Kate

Subject: RE: Monthly reporting for Variability and Relevance of Current Laboratory Mammalian Toxicity Tests and Expectations for New Approach Methods (NAMs) for use in Human Health Risk Assessment

Good morning Kate,

Let's move forward with scheduling a recurring monthly call following progress report submission. It looks like your internal deadline to send reports is the 9th of each month, I would propose a monthly meeting on the first Monday following report submission from 11:30AM – 12:00PM.

If possible, a meeting on Monday 9/20 from 11:30-12:00PM or 1:30-2:00PM looks open for the most EPA attendees. Please let me know if either of those times would work for you, understanding the short notice.

EPA invitees for standing progress report meeting:

Kai Thompson – thompson.kai@epa.gov

Sammy Hanf – hanf.alexander@epa.gov

Jorge Rangel – rangel.jorge@epa.gov

Rusty Thomas – thomas.russel@epa.gov

Nisha Sipes – sipes.nisha@epa.gov

Monica Linnenbrink – linnenbrink.monica@epa.gov

Reeder Sams – sams.reeder@epa.gov

Best regards,

Kai

Dear Kate,

Received, thank you.

I will review and confirm with the EPA team their preference for a meeting.

Best regards,
Kai

Dear Kai, dear all,

With apologies for the error in my prior message, please note that the appended file provides the Progress Report for **August** 2021 for the subject project (Contract #68HERC19D0011; Task Order # 68HERC21F0178; NASEM PS# 10005365).

With kind regards,
Kate

Subject: Monthly reporting for Variability and Relevance of Current Laboratory Mammalian Toxicity Tests and Expectations for New Approach Methods (NAMs) for use in Human Health Risk Assessment

Dear Kai, dear all,

Appended please find the July 2021 Progress Report for the project *Variability and Relevance of Current Laboratory Mammalian Toxicity Tests and Expectations for New Approach Methods (NAMs) for use in Human Health Risk Assessment* (Contract #68HERC19D0011; Task Order # 68HERC21F0178; NASEM PS# 10005365).

As mentioned separately, we would be happy to establish a monthly call to follow submission of the monthly progress reports. Please do indicate EPA's preferred day and time for such a meeting.

With kind regards,

Kate
